

**TODAY and
TOMORROW**

Anglo-U.S. Hypocrisy

AT present, the enemy is directing his vicious propaganda against the Filipinos in a frantic but vain attempt to deceive them. Enemy propagandists are describing in the most extravagant terms American plans for the post-war reconstruction of the Philippines. Americans held the Philippines for about half a century, but not even once, in that long period had they ever bothered about the welfare of the Filipinos. They are now talking about a glorious future for them only just to deceive them and re-enslave them.

These American plans for the Philippines remind us of similar British plans for Burma. America's hypocrisy towards the Filipinos and British hypocrisy towards the Burmese are of exactly the same pattern—the Anglo-American pattern of false promises and deceitful persuasion. British propagandists claim that Burma was on the verge of becoming an independent dominion—only Nippon spoiled everything by ousting the British out of Burma! That phrase “independent dominion”—only the British brain can conceive it. Burma was to be a British dominion—Burma was to be independent under British domination.

According to the British, no Asiatic nation can be said to be independent unless it is under British domination—or, as a second best alternative, under American domination. Burma today is absolutely free and independent; but to the British, Burma has to be “liberated” and reconstructed, that is to say, Burma has to be re-enslaved and prepared for most thorough British exploitation.

While Burma is altogether out of their hands, the British are using all the hypocritical professions only to deceive the Indian people, because India is still under British domination. As they do not have any real hope of reconquering Burma, the British want to keep the Indian people under the illusion that they are going to do it and that they are going to convert Burma into an earthly paradise after the war. The British want the Indian people to think that for India also, there is such a glorious future under British rule.

No Indian suffers from such illusions. British tyranny and exploitation is too grim a reality to allow any Indian to be deceived into such illusions. The entire population of India knows that independence, progress and development can come only when the British have been destroyed or driven out.

Network Of U.S. China Air Bases Totally Smashed

Premier Gen. Koiso Sends Gratitude Message To Field-Marshal Hata

Tokyo, Nov. 11 (Domei)—The complete occupation by Nippon forces of Kweilin and Liuchow, two key American airbases in South-West China, was announced by Dai Honyei in a communique released at 4.30 o'clock this afternoon. The reduction of these two pivotal points means that the network of American airbases in this sector has been smashed, and Nippon forces have secured a superior strategic position on the China continent, the announcement added.

The text of the communique follows:—

“Firstly, our units which started operations from Central China in the latter part of May, in close co-operation with other forces which started operations from South China in the latter part of June, completely reduced Liuchow and Kweilin at 10 a.m. and 12 noon on Oct. 10 respectively, thereby smashing the network of bases of the United States air force in this sector, and establishing a superior strategic position on the China continent.

Secondly, the Supreme Commander of army units operating in that sector is General Yasuji Okamura, and the Supreme Commander of navy units, Admiral Nobutake Kondo, while the Commander of army units in Central China is Lieut.-Gen. Isamu Yokoyama, commander of army units in South China Lieut.-General Hsaiichi Tanaka, the Commander of navy units Vice-Admiral Daisuke Soyijima and commander of the army air force Lieut.-General Takumura Shimoyama.”

It is learned that Premier General Kuniaki Koiso in his capacity as President of the Imperial Rule Assistance Association, sent Field-Marshal Shunroku Hata, Commander-in-Chief of the Nippon Expeditionary Forces in China, a message of gratitude on behalf of the entire Nippon nation on the home front, congratulating him on the reduction of Kweilin, one of the most important enemy airbases on the China front.

In his message, Premier Koiso stressed that this brilliant achievement by our forces is bound to have a far-reaching effect on the general course of the current war. He added that the great strategic importance of the fall of Kweilin is fully appreciated by the entire nation on the home front.

Netaji Attends Funeral Of Late Mr. M. Senda

Tokyo, Nov. 11 (Domei)—Netaji Subhas Chandra Bose attended the final rites for Mr. Murotaro Senda, former Army Chief Civil Administrator at Tsukiji, Hongwanji, yesterday afternoon. Later the same afternoon Netaji was host at a tea-party for approximately 270 dignitaries including Nippon Cabinet members, General Hideki Tojo, and members of Axis diplomatic circles here.

National Government Observes Sun Yat-Sen's Birthday Anniversary

Nanking, Nov. 12 (Domei)—The birthday anniversary of Dr. Sun Yat-sen, Father of the Chinese Republic was solemnly observed today by the National Government of China. Following worship before the Sun Yat-sen Mausoleum this morning, a memorial service was held at which Chen Kung-po, Acting President and other officials of the National Government made a report on the progress of reconstruction in China.

Respects were paid to the spirits of China's patriots as well as to Nippon-jin who supported China's revolution, reiterating the firm resolve of the National Government to crush the Anglo-American enemy in the current war.

who are still rotting in jails. In a frantic effort to save themselves from total destruction, the British Government in India is devising new ways and means for the most thorough exploitation of India's foodstuffs and other resources for the Anglo-American war effort.

American Retreat Path Cut Off In Leyte Sector; Pessimism In United States Over P.I. Campaign

Manila, Nov. 12 (Domei)—A unit of the Nippon forces, which have been pounding the United States 24th Division around Carigara, northern Leyte Island, since Nov. 7 with shattering offensive blows, has succeeded in cutting off the path of retreat of the American spearhead, it was disclosed yesterday.

Despite difficult terrain, Nippon forces in this sector have been smashing the enemy at every turn, obstructing their line of supply and have forced the entire division into a state of virtual collapse.

Lisbon, Nov. 11 (Domei)—Hitherto optimistic American war reports from Leyte took a different turn today with pre-

Gandhiji Calls All-Party Conference To Speed Up Anti-Br. Revolution

The anti-British revolution in India continues to rage with unabated intensity and the nationalist leaders in India are making further efforts to consolidate the all-India front against the British.

A report from London reveals, that Mahatma Gandhi has taken steps towards calling an all-party conference to discuss ways and means of wresting India's independence from the unwilling hands of the British as early as possible. The report adds that following a meeting of the Executive Committee of the India League in Britain, it was decided that efforts should be made to bring pressure on the British Government with a view to making the Government respond to the demand of the Indians.

That Britain has not the least intention of granting complete independence to India and that she will continue her present policy of exploitation of India's foodstuffs and other resources and oppression of the masses was clearly revealed during the course of a debate in the Central Assembly last Saturday.

Answering a question, Sir Sultan Ahmed voiced the decision of his British masters that they were not prepared to offer India anything more than the notorious Cripps' proposals which had been rejected by almost all parties in India. In answer to another question Sir Sultan replied that the British Government do not propose to release the members of the Congress Working Committee

Azad Hind Govt. Publicity Minister's Statement At Press Conference

Somewhere in Burma, Nov. 11 (Domei)—Pointing to the continued vigorous United States penetration into India to gain a post-war exploitable stranglehold on the country, Sri S. A. Ayer, Propaganda Minister of the Provisional Government, in a press conference declared that it is significant that the enemy has seen fit to publish statistics of the reciprocal American-Indian aid. He said that the British are “not at all keen” in giving publicity to the fact that since 1942 America aided India to the total value of Rupees 712,500,000; while Indian aid aggregated Rupees 18,000,000; but these figures have been published as a result of American pressure on the British for the purpose of getting more Indian sympathy for the Americans.

He said that the Americans are trying to remove the impression that the United States has joined Britain in draining India of its resources and that it has actually given India more than what it received. He said, however, that this juggling is not going to deceive Indians that India is not being squeezed for their war. He went on that once the Americans strengthen their hold on the Indian economic life, exploitation will be far worse than under the British, because of the American habit of doing everything on a grandiose scale.

The British gesture to the Americans is interpreted as showing that the British are losing ground in India to the Americans. Sri Ayer pointed to another gesture in the same category made by the British toward Soviet Russia, in allowing Indian representatives for the World Trades Union Congress which was not held owing to the war. He pointed out that the British had always persecuted trade union activities, socialism and communism in India which constitute a threat to British capitalistic prosperity but are now trying to impress the U.S.S.R. with the changed British policy.

Referring to the debates in the Central Legislature, Sri Ayer said that the statement by Sir A. Dalal, member for reconstruction and post-war planning, that “such measures are only carried out by the government with the full support and goodwill of the people behind it”, cut at the root of the whole British post-war propaganda with regard to reconstruction after the war which subtly aimed at suggesting that the British will remain in India forever. He said that the statement that

Leyte Campaign Held Roosevelt's Doom

Manila, Nov. 11 (Domei)—Declaring it was immaterial to Filipinos who won the presidential election in the United States the Tribune bluntly states, "We in Asia are interested in more fundamental implications of recent trends American."

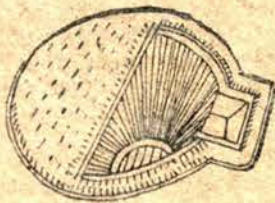

It says while the people of American "democracy" re-elected the world's No. 1 war-monger, Roosevelt, "We are intelligent enough to know that the war of world domination which American leaders are now waging will not cease because of a mere change in presidency". It asserts that the enemy's Leyte invasion is a major manifestation of American intention to conquer and enslave the world.

Declaring that through political repercussions over the Leyte campaign the Roosevelt clique has renewed its stranglehold on the American masses for the next four years of world aggression, the Tribune predicts however that in moving the American armed forces to the Philippines, Roosevelt has laid the foundation of his downfall.

Enthusiastic Response For More Shelters

Responding to the authorities' appeal issued last week for the construction of air raid shelters as a precaution against air raids, the people of Syonan-to have been busy during the past few days in digging up trenches.

All over the island the various sections of the public have been paying the greatest attention to this problem of providing shelters against splinters or missiles, and it is expected that the authorities' appeal to construct as many trenches as possible—at least ten times the present number—will be largely fulfilled.

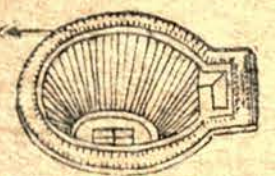

Shelter with cover

The recent bombing in Syonan has proved, as the result of close inspection, the effectiveness of partly covered trenches against risks from splinters or missiles and this type of shelter is strongly recommended by the Tokubetsu authorities.

Partly covered trenches preferably for individual use or for the use of a few persons should be constructed about seven metres apart from each other and away from any building for a distance equivalent to two-thirds the height of that building.

Special attention is drawn to the shelter with cover which is recommended by the City Authorities as the most suitable.

Shelter without cover

British Shudder At New German Mystery Weapon

Berlin, November 9 (Domei)—The radical difference between the latest V-2 and its prototype the V-1 is that the former can neither be heard nor is visible until directly above the objective, according to the Dienst Aus Deutschland in its feature article on Germany's newest rocket-propelled giant missile. Consequently, the explosion takes everyone by complete surprise, the journal said, adding that the V-2's explosive power is unequalled by any explosive now in use.

Although the British Government is placing a strict ban on reports concerning damage caused by the V-2, reports reaching neutral countries indicate that serious damage was caused by the latest weapon in the vicinity of Euston Station in London where traffic has now been strictly prohibited, and a great number of buildings damaged.

Lisbon, Nov. 10 (Domei)—The first admission of the German use of the V-2 weapon against London and other parts of England was made by the British today, when Prime Minister Churchill in the House of Commons announced that the Germans were using long-range rockets against England, according to a London report reaching here.

He said: "Last February I told Parliament that the Germans were preparing to attack this country by means of long-range rockets and I referred again to the possibility of this form of attack in my statement in this House in July. For the last few weeks, Germany has been using this new weapon—long-range rockets—and a number have landed at widely scattered points in this country."

Lisbon, Nov. 11 (Domei)—A clearer description of Germany's latest destructive "mystery weapon"—the V-2—and the nature of its terrible explosive power was given to those outside Britain today when the British Broadcasting Corporation transmitted an eyewitness program about the latest rocket-propelled bomb. Archie Lee, one of the members taking part in the broadcast, related that he saw a V-2 during the night. "It was far off and looked like a ball of fire. Steeply it travelled from the sky, and I saw it disappear in the horizon. Then I saw the flare of an explosion and a little later, despite the enormous distance, heard a terrible detonation."

Lawrence Hanson, who also saw a V-2, declared he first thought it was a shooting star, adding, then it became bigger and bigger and finally was a big ball of fire. "A few seconds later it dropped behind the distant houses and a red glow spread into the night sky."

Audrey Russel, woman journalist, who visited a place hit by a V-2, declared she saw a huge crater with houses in the vicinity all aflame, with clouds of dust and smoke everywhere.

Some people who were not too far from the place where the explosion occurred, declared that they heard nothing prior to the terrible blast, she said.

Meantime, the London Daily

President Wang Passes Away

Nanking, November 12 (Domei)—The Publicity Ministry of the National Government of China today announced that President Wang Ching-wei, aged 62, died at 4.21 p.m. on November 10 in Nippon while undergoing medical treatment in Nagoya.

It is disclosed that a decision has been reached whereby Chen Kung-po, President of the Legislative Yuan, will serve as Acting President of the National Government of China, filling the vacancy left open due to the death of President Wang Ching-wei, at today's extraordinary meeting of the Central Political Council.

Abortive Raids On Kyushu And Saishu

Tokyo, Nov. 11 (Domei)—Dai Honyei announced at 3.20 this afternoon as follows:—

"The American air force in China, with a formation of approximately 80 B-29's, raided western Kyushu, and Saishu Island about 10 o'clock today. The enemy raiders fled after indiscriminately unloading explosives from above the clouds."

"Damage to our side was negligible."

A Nippon Base in the Central Pacific, November 12 (Domei)—An undisclosed number of enemy warships last night approached Iwoshima, Ogasawara Group, and subjected the island to ship bombardment. Earlier during the daytime yesterday about 20 B-24's attempted to attack the island in two waves.

Damage caused to our side was extremely slight.

Iranian Govt. Resigns Over Oil Concession

Lisbon, Nov. 10 (Domei)—Apparently unable to resist strong British-American-Soviet demands for oil concessions on Iran, the Iranian Government, headed by Premier Mohammed Saad, today formally resigned, culminating a little more than two months' dispute between Iran and the three anti-Axis powers over the matter of oil rights, according to Middle East dispatches received here.

It may be recalled the Saad Government became the target of strong anti-Axis economic and political pressure when it decided to turn down the granting of oil concessions to foreign countries in order to ensure exploitation of Iran's oil resources by Iranians themselves.

Express reported that people who have picked up fragments of V-2 rocket-bombs have had their fingers burnt not by heat but by extreme cold. Some fragments were coated with ice more than an inch thick, it said.

The latest "mystery weapon" has been reported to fly faster than sound and goes 60 to 70 miles into the stratosphere. The rockets have been described by others as resembling flying telegraph poles, luminous pencils or great black arrows.

Americans Suffer Great Losses In Border Fighting

Lisbon, Nov. 10 (Domei)—The battle at the frontier of Lorraine further increased in intensity yesterday, according to dispatches received here. The German High Command said that between Delme and Chateau Salnes, the Americans succeeded in penetrating into a series of localities by throwing 200 tanks into the battle but suffered high losses.

After violent preparatory fire the Americans also opened an attack to the north of Metz and managed to cross the Moselle area of Diedenhofen, the German communiqué said. German grenadiers relieved temporarily the encircled fortress of Koenigsmachern, east of Diedenhofen, and partially thrust back the Americans in heavy local fighting and took prisoners in counter-attacks, Berlin said. The American First Army reported heavy fighting south-east of Aachen. The attack on London by "V-1" and "V-2" flying-bombs was continued yesterday, the German High Command added.

Moscow dispatches said that Soviet troops drove a wedge across the last German direct railway communications between Budapest and north-eastern Hungary after shattering the west bank defences along the Upper Tisza River. On the remainder of the Eastern Front, the day passed yesterday without largescale fighting.

In Italy heavy street fighting took place for hours in Forli, south-east of Bologna, after the British had prepared their penetration into the city with a heavy barrage. The long drawn-out fighting in this area gave the Germans time to evacuate 22,000 inhabitants from Forli and to prepare for house-to-house fighting so that the heaviest losses are now being inflicted on the enemy, a front-line dispatch to Berlin said.

Penetration Of Dollar Imperialism Into India

(Continued from previous page)

only a national government would be able to put post-war plans into operation upset the British authorities in India who started propaganda only to divert attention from what is happening today to future events.

Sri Ayer said that the debates in the Central Assembly and the Council of State regarding the food situation are only "a cry in the wilderness", for whatever the debates and resolutions they will not change the British policy, which is that even if Indians die in millions the Anglo-American war effort will be kept up. He pointed out to two very grave charges which still remain unanswered, namely, that the British are deliberately sending foodstuffs out of India to troops overseas, while also grabbing stocks for the British and Indian troops in India. He said that the debates only show that the people are worried about the food situation which is really serious but nothing will come out of their "despaired cries".

Indians Donate To Settlement Schemes

A donation of \$35,050, being contributions from 39 firms and representatives of the Indian community of Syonan, has been received by the Kosei-ka Cho (Mr. M. Shinozaki) from the Chairman of the Indian Independence League, Syonan Branch, towards the Endau, Bahau and Bintan-to Settlement Schemes.

"It is the intention of the donors (says the Chairman of the I.I.L., Syonan Branch, in his letter to the Kosei-ka Cho) that the donations should be utilised by you, in any manner you think fit, for the furtherance of the Endau, Bahau and Bintan-to Schemes which have been conceived and brought into existence by your good-self," with the assurance that the Indian community of Syonan is always prepared to perform their share of work for the entire success of "your great constructive schemes."

The Kosei-ka Cho has distributed the amount in the following manner:

Endau (New Syonan) Fund	\$10,000
Bahau Fund	\$10,000
Bintan-to Settlement	5,000
Indian Welfare Association	5,000
For opening of Public Hall and Agricultural Exhibition, Nov. 12, Mukim 5 (Chinese Section), Bahau	2,000
Indian Section, Bahau	1,000
Agricultural Competition, Bahau (Mukim 6)	1,000
Cloth for fire victims, New Syonan	1,050
(The list of donors will appear tomorrow).	

Lawlessness In Italy Of Anti-Axis Soldiers

Lisbon, Nov. 10 (Domei)—Reports concerning the lawless acts of anti-Axis soldiers in Italy were confirmed today when the anti-Axis Mediterranean Headquarters revealed that seven American soldiers and two Canadians were arrested for participating in a series of gang hold-ups and robbery in Naples and Rome, according to a London message.

These soldier-criminals who have been committing such offences since the Anglo-American occupation of these areas will face courtmartial, the report revealed.

NOTICE

Indians and Ceylonese who have not submitted the declaration of their assets yet should do so on or before the 20th instant, failing which their assets will be estimated for assessing contributions payable to the Indian Independence Movement Fund.

Persons who have not received forms may get them from I.I.L. Syonan Branch, Waterloo Street.
